## Lymeware Corporation Overview

Lymeware Corporation exists to provide solutions to our client's software needs through the use of proven technology and leading industry practices. If it can be done and done right, we will do it.

We have a proven track record in Several Areas of Expertise, such as Telecommunications, Electronic Data Interchange (EDI), Networking and Messaging (SMTP, SNMP, X.400, and Lotus Notes), Security (PKI, X.509, SSL, TLS, and PGP) and product development.

Lymeware focuses on software development for Fortune 1000 clients and leading technology projects.

Lymeware's clients are the emerging and "best of breed" companies in the Telecommunications and Biotechnology fields. Lymeware is known for our concentrated domain expertise in software development with Messaging, Network and Security technologies. Another focus of Lymeware is specialty software product development. Large, small, and startup companies have used Lymeware to develop software products, marketed under client company brands.

Our Clients like two things about working with Lymeware: our knowledgeable employees and our deep vertical knowledge and experience. These attributes, combined together, create a unique and powerful solution to our client's software project and product needs.

We are committed to providing our customers with consultants skilled in the services and technologies that they require. Our services are geared to maximize efficiency and minimize risk on our client's projects.

By focusing on clients that present Lymeware with the greatest opportunity to add value to their businesses, and by providing an environment of growth and excellence for our professionals, we have become partners in Information Technologies -- to both our clients and our professionals. Lymeware's goals are to be our clients' strategic IT services partner and the best place to work and develop a lasting career in software development and IT.

Our operations are structured to provide high-value development services within a framework of quality assurance and long-term commitment, so our clients get the most from our talent and resources. Operationally, we reward relationship building and client satisfaction, as well as employee satisfaction and retention, because these are the drivers of our growth.

Past and current Lymeware clients include:

- **Telecommunications:** AT&T, AT&T Bell Laboratories, SBC Communications, MCI, and Bell Atlantic
- **Biotechnology:** Bristol Myers Squibb and Pfizer Pharmaceuticals
- IBM and other Fortune 1000 companies.

Lymeware serves most of its client in the northeastern region of the USA (New York, Massachusetts, Connecticut, and New Jersey).
